

MULHAUSEN GETS MAXIMUM PENALTY

Judge Lewis Adopts Recommendation of Public Prosecutor in Robbery Case.

WIFE WANTED TO JOIN HIM

She Changes Her Plea to Guilty and Draws Six Months in the County Jail.

Henry Mulhausen, who was arrested by the sheriff's office following a series of robberies in the southwestern portion of the city, was sentenced to serve 20 years at hard labor in the state prison by Judge Lewis in the Third district court, criminal division, this morning. Mulhausen was arraigned for preliminary hearing in the criminal division of the city court yesterday morning and pleaded not guilty. He waived preliminary hearing and was held to the trial court. This morning his case was called and Dist. Atty. F. C. Looftbour moved to dismiss seven counts of burglary, four counts of grand larceny and five counts of petty larceny in the information. He only pressed the case in which the robbery of N. Nathan's store near the Salt Palace is charged. It was alleged in the information that Mulhausen had stolen from this place a wagon load of merchandise, driving off with it to his home.

Mulhausen, through Jesse M. Stein, interpreter, pleaded for the court's leniency, saying that he came from a good family, and that he had never before been in trouble. This plea seemed to have little effect with the court, who remarked that in the eight months Mulhausen had been in this country, he had employed himself chiefly with stealing. The public prosecutor recommended the maximum sentence of 20 years, which was passed.

WIFE CHANGES HER PLEA

Knowing that her husband has to serve a long prison term, and feeling she cannot bear to be separated from him, Mrs. Helena Mulhausen, wife of Henry Mulhausen, appeared in the criminal division of the city court before Judge Bowman this morning and changed her plea of not guilty to that of guilty to the charge of petty larceny. She was accused of stealing an ax-minister rug from the home of Albert Nelson, and assisted her husband in taking from that place about everything that could be carried away. The woman was arraigned Friday and pleaded not guilty. This morning she said she wished to plead guilty and be sentenced. Judge Bowman sentenced her to a term of six months in the county jail.

COMMISSION DENIES REQUEST

Officials of the Salt Lake Route Friday received telegraphic instructions from the interstate commerce commission at Washington, denying the railroad the request that a 30 cent emergency freight rate be installed on all goods, regardless of class, which were caught in the flooded district in the Meadow Valley wash. The request was made for the 30-cent rate for the reason that much of the goods are of the perishable order and unless handled quickly are not worth hauling at all. The ruling of the commission on the matter denying the request, has been received over the wire and regular rates must prevail on the tied up freight.

STALLINGS IS BANKRUPT

A voluntary petition in bankruptcy was filed in the federal court Friday by John A. Stallings, a teamster of Salt Lake, who gives his debts as \$1,414.98 and his assets as \$157.

CODDINGTON FILES SUIT

Claude J. Coddington filed suit Friday in the Third district court against the Neelke-Richards Iron works to recover damages in the sum of \$10,000 for personal injuries which he sustained last November while employed on a Denver & Rio Grande depot. The company, it is alleged, failed to provide the proper ladders and a safe place of work, and as a result he fell from a wall on which he was working, dislocating his left knee and bruising his body.

CHARGED WITH BURGLARY

A complaint was issued from the office of the county attorney this morning against C. W. Aller, charging burglary in the second degree. In the complaint it is alleged that between the hours of 2 and 3 o'clock a. m. Aller stole \$15.95 in gold and silver from the Council bar, situated at No. 8 east First street, the property of Peter Targhetta.

DESERED, SHE SUES

Laura Rice this morning filed suit in the Third district court for divorce from her husband, John E. Rice. They were married at Omaha, Neb., Dec. 19, 1907, and have one child, a son of 14 months. Plaintiff asks for divorce, the custody of the child, \$50 attorneys fees and \$50 per month alimony.

IN THE ROLE OF FAGIN

Complaint sworn to charging Jim Kallas With Receiving Stolen Goods.

With the arrest of Jim Kallas, who conducts a coffee house at 462 west Second South, it is claimed the officers have unearthed a petty thievery exchange, with Kallas in the role of Fagin. A complaint was sworn to in the office of the county attorney this morning charging Kallas with receiving stolen property. At the time of his arrest Friday, Kallas was found to have in his possession, unlawfully it is claimed, 20 pounds of

butter, 43 pounds of lard, 15 dozen eggs, two cartons of smoking tobacco, one caddy of chewing tobacco, and a ham, the value of which is \$50, and which is alleged to be the property of H. J. Hardin, who conducts a grocery store at 375 west South Temple street.

From evidence which the officers have been able to gather, Kallas has been in the habit of encouraging young men and delivery boys to bring goods from their employers' establishments to him, his plan being to get the boys indebted to him and then asking them to bring him goods for the satisfaction of the debt. A number of youthful "artful dodgers" have been carrying goods to Kallas. It is claimed during the past few months. Five other complaints will be issued against Kallas on Monday, charging him with other offenses of a like nature.

Kallas is at present held in the city jail pending his arraignment early next week.

ALL IN READINESS FOR THE BANQUET

Great Preparations for Annual Affairs of the Commercial Club—Bonds Nearly Subscribed.

All is in readiness at the Commercial club for the annual banquet tonight. The rooms are floral bowers, and arrangements have been made to care for the great crowd with the least trouble and inconvenience. Special coat rooms have been prepared and roomed for the guests. The club will handle the 300 guests who will be on hand tonight.

At the meeting of the board of governors Friday afternoon 57 new members were given their credentials. This raises the membership almost to 1,300, an increase of 140 per cent in less than six weeks. It is intended to keep up the membership until the members reach the 1,500 mark is reached. It is thought that this number can be obtained by the first of June, when it is thought that the new club building on Exchange place will be ready for occupancy.

The finance committee reported total subscriptions to date for the new building \$2,000. This is \$25,000 more than is needed, as the total authorized, \$25,000, was found to be too great. C. M. I. subscribed \$5,000, as did the Continental Life Insurance and investment company. Thomas R. Cutler and Albert Fisher subscribed \$2,000 each, and Thomas G. Webster \$1,000.

President Halloran is authorized to accept the delegation to the model roads convention to be held in Salt Lake Jan. 25-28. John Dern was named to head the list with the others to be named later. The board adjourned to meet Tuesday next when the new members of the board will be inducted into office.

The late contributions to the building fund are as follows:

MINER LOSES HAND

Martin Strauer Terribly Injured by Explosion of Stick of Dynamite.

Martin Strauer, employed at the Consolidated mines at Bingham, is at St. Mark's hospital suffering from terrible wounds received Friday as a result of an explosion at the mines. His left hand was frightfully torn and his face and shoulders were cut and bruised. Strauer had lighted a fuse connected with dynamite and as the fuse did not burn properly he concluded it had gone out. He proceeded to investigate when suddenly the charge exploded, tearing the man's hand and otherwise injuring him. He was brought to this city Friday evening and placed in St. Mark's hospital. He is reported today as getting along nicely.

PROFIT IN CHICKENS IN CALIFORNIA TOWN

W. W. Browning Writes of Visit to Petaluma Farms Where Success Abounds.

The week of chickens which has been afforded by the poultry show has brought forth some interesting information in regard to just what chickens raising means together with the possibilities of Utah, and a very instructive letter on probably the greatest poultry center in the country. W. W. Browning, a lover of the birds, has sent a communication to The News which is of absorbing interest.

"I have just returned from a poultry show at Petaluma, Cal., and knowing how one of the greatest of all industries has been neglected in Utah, I think the time appropriate to afford some information in regard to a great chicken raising center," writes Mr. Browning. "Petaluma is a town of some 600 people and it derives its entire sustenance from poultry or its affiliated industries. The actual receipts from the poultry products are \$5,000 for every day of the year. About three miles west of Petaluma there are 125,000 White Leghorn chickens in a small valley one by four miles in extent. People are using land worth \$400 for raising poultry."

"The poultry show of Petaluma is the biggest event of the year in that town. The best stock of the state is on hand. \$1,200 for expenses and all sorts of purses and cups are offered. A peculiar condition is that the White Leghorns are about the only breed raised in that vicinity. The flocks range from 1,000 to 8,000. Anybody handling any less than 1,000 is hardly considered a poultry raiser. The average producer gets a profit of from 65 cents to \$1.50 per hen from their flocks."

"Petaluma is about 30 miles from San Francisco, the market which it absorbs the products. It obtained a supremacy in the chicken world over a quarter of a century ago when an eastern man in search of health settled there and took to raising chickens on a scientific plan. Now there is a great incubator factory at Petaluma and this style of incubator is known all over the world."

"What has been the attitude of Utah in regard to poultry culture? The state has practically done nothing. The exception is that a few chickens are raised, but the poultry experiment was left to the clerk and when he began to get interested in the chickens and made a few experiments another state got him. Missouri, Kansas and Nebraska look after their poultry interests and as a result they ship poultry to the value of millions of dollars all over the country."

BONDS DISCUSSED

Members of Ladies' Literary Club Debate High School Proposition.

Members of the Ladies' Literary club held a session Friday afternoon, where the proposed issue of bonds for the erection of a high school was briskly discussed. In her remarks, Mrs. Q. A. Nelden said, "Unless some assurance is given that the bond issue will be properly used, I will vote against it. I do not believe the present school board capable of handling the money properly. The board of the superintendent of buildings by the board recently was one of the most iniquitous things I ever heard of, and I am opposed to trusting such a set of men with money." Mrs. G. V. Parmelee gave an equally vigorous talk, endorsing the stand taken by Mrs. Nelden. Mrs. W. A. C. Jennings thought the club should favor the issue of bonds on account of the great need of the building. Mrs. J. E. Stanford and Mrs. J. F. Cowan supported Mrs. Jennings' stand. The motion favored the bonding.

HOTELS MUCH AFFECTED

Washout on Salt Lake Route Turns Tide of Travel.

On account of the suspension of through business, because of the washing out of 100 miles of track in the Meadow Valley wash on the Salt Lake Route, the travel among the commercial men and tourists between this city and Los Angeles has fallen to the minimum. The range of the mountains who otherwise would come through Salt Lake, now take the southern route, along the Santa Fe line, leaving Utah out altogether. Consequently the hotels in Salt Lake are feeling a pinch. Los Angeles hotels are registering complaints that the stoppage of the through trains on the Salt Lake Route is sending thousands of tourists northward who otherwise might have gone down through southern California.

The distance is 40 miles, which the stages cover in about eight hours. The fare started in at \$10 each way, but competition has reduced this to \$7.50. They are at present charging a cent a foot for freight. The old rate was 40 cents a hundred. These figures will soon be brought down to a reasonable basis, when the permanent lines are established between Modena and Pioche.
